

✓ **IN THE TITLE:**

Replace the title of the invention with the following title:

--LIQUID CRYSTAL DISPLAY DEVICE WITH SUBSTANTIALLY BILATERALLY
SYMMETRIC PIXEL ELECTRODES--.

IN THE CLAIMS:

Please amend claim 19 as follows:

AI 19. (Amended) The TFT substrate according to claim 10, wherein each pixel area has spaces between the pixel electrode and adjacent data lines, and the area of the space between the pixel electrode and one of the adjacent data lines is substantially the same as the area of the space between the pixel electrode and another one of the adjacent data lines.
